DETAILED ACTION

Allowable Subject Matter

1. Claims 37 – 96 are allowed.

The following is an examiner's statement of reasons for allowance:

- The references of the Prior Art of record fail to teach, or suggest any obvious combination of the limitations discussed in the previous Office Action mailed on November 1, 2005, and further comprising the limitations of **(With respect to claims 37 and 60)** the bumper is separate from and spaced from the first and second resistant members; nor **(With respect to claims 63 and 81)** wherein a first sidewall and a second sidewall defining a first and second cavity between the bumper opening and the first and second lip, respectively, the first and second cavity communicating with the bumper opening; nor **(With respect to claim 84)** a baffle isolation assembly including a bumper positioned in the baffle opening and contacting the baffle portion; a first resistant member generally disposed on a first side of the bumper and contacting a first surface of the baffle; and a second resistant member generally disposed on a second side of the bumper and contacting a surface of the baffle; nor **(With respect to claim 94)** isolating the baffle from the housing against loads in a longitudinal direction orthogonal to the radial direction by

interposing a first resistant member between a first side of the baffle and the housing where the first resistant member contacts the baffle, providing a second resistant member in contact with an opposing second side of the baffle, and mounting the first resistant member and the second resistant member relative to the baffle such that the first resistant member and the second resistant member are restricted from moving freely in the longitudinal direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
